About me

I'm a UI/UX designer and front-end developer who enjoys turning ideas into playful, thoughtful, and easy-to-use digital experiences. I combine design and code to create work that feels visually interesting while still making sense for the people using it. I enjoy exploring different styles, solving problems, and bringing ideas to life through both design and development.

Experience

2026 | Freelance UI/UX Designer
Cairenn Foy Interiors — Website Redesign

- Designed a new website experience focused on clearer navigation, visual hierarchy and a more refined digital presence.
- Created responsive page layouts and landing-page concepts based on the client's business and brand requirements.
- Developed the redesign into a working web experience. [View redesign ↗](#)

2022–Present | Shop Manager
Toons Bridge Dairy, Dublin

- Manage daily operations, team coordination and customer experience.
- Identify problems and implement practical service and workflow improvements.
